18th Edition - Requirements for Electrical Installations - City & Guilds (2382-22)

Course Aim

To successfully develop an understanding of the 18th Edition IET Wiring Regulations (BS7671), which covers all UK electrical installations – industrial, commercial and domestic.

This qualification ensures you are compliant and up-to-date with the latest industry regulations on wiring and the safe use and operation of electrical equipment and systems.

Who Should Attend?

Those who are wanting to work in, or currently working in environments requiring 18th Edition qualifications will need to complete the City & Guilds 2382 assessment referencing BS7671.

This qualification is primarily aimed at practising electricians with relevant experience and other allied professionals e.g. surveyors, consultants and other trades needing to update and enhance their understanding of IET Wiring Regulations.

Course Duration

This is a 3 day course

Agenda

- Scope, objective and fundamental principles of BS7671 – who the regulations are for and what they are meant to do
- Definitions – explanation of the terminology used in the regulations
- Assessment of general characteristics – surveying the site and equipment to be installed
- Protection for safety
- Selection and erection of equipment
- Inspection and testing
- Special installations or locations
- Past exam revision
- Assessment - City & Guilds 2382

Certification

Delegates successfully completing the City & Guilds 2382 examination will be issued with a certification by City & Guilds.
