

**BRANACH**
SAFETY. OUR WAY OF LIFE

BRANACH Fall Control Ladder

Course Aim

This course is designed to provide delegates with an awareness and understanding of the BRANACH fall control ladder system with regards to maintaining and improving safety whilst undergoing work activities at height.

This course provides an overview of current work at height and ladder regulations and safe systems of work including safe use of harnesses, P.P.E requirements, safe ladder usage and fall control system setup and safe use.

Who Should Attend?

This course is designed for those who use ladders as part of their daily work activities in order to manage and reduce the risk when working at height.

Course Duration

This is a 1-day course.

Maximum Delegates

The maximum number of delegates is [10].

Certification

Delegates successfully completing the course will receive an HSS Training certificate of attendance.
