

Driver CPC - Vehicle Roadworthiness, and Transport and Site Safety - Remote Learning

Course Aim

This course is split into two modules Vehicle Roadworthiness and Site Safety.

The 'Vehicle Roadworthiness' module highlights the importance of regularly assessing a driver's vehicle. This training refreshes delegates' knowledge on essential walk-around checks, explaining why they are crucial and what specific areas should be inspected. Additionally, delegates will learn about the significance of personal health awareness checks to ensure their safety while on the road.

The 'Transport and Site Safety' module covers the health and safety responsibilities drivers must be aware of in the workplace, specifically in relation to transport and site safety. This course is designed to enhance driver safety and is closely aligned with on-site safety training to ensure a comprehensive understanding of workplace safety protocols.

Who Should Attend?

This course is aimed at those looking to obtain their Driver Qualification Card (DQC). This course will count 7 hours towards your mandatory 35 learning hours that you require for the DQC. This course is suitable for those who hold either a HGV or PCV license.

Certification

Upon successful completion of this course, delegates will be presented with a printable certificate of competence that will last 5 years. To obtain your Driver Qualification Card (DQC) you must complete 35 hours worth of driver CPC modules.

Agenda

This course contains two modules and includes the following topics:

Vehicle Roadworthiness:

- Why vehicle checks have to be completed
- What checks are required
- How to properly complete the walkaround check
- Vehicle defect reporting
- Consequences of non-compliance
- Personal health checks

Transport and Site Safety:

- Loading bay safety
- Vehicle checks
- Fitness to drive
- General on-site safety issues

Course Duration

This is a 1-day course

Maximum Delegates

Maximum attendees: 20 delegates.
