

IPAF Operator Renewal E-Learning

Course Aim

This course provides recertification training for experienced IPAF MEWP Operators through the use of E-Learning modules to refresh their knowledge in a range of situations and environments. This course covers the powered access categories - Mobile Vertical (3a) + Mobile Boom (3b).

Who Should Attend?

This course is suitable for delegates who have a valid IPAF PAL card with existing categories and experience that they wish to renew.

Operator E-Learning does not replace practical training. Delegates who complete the online session must still pass a supervised theory test and practical training at an IPAF-Approved Training Centre.

Course Duration

This is a 2 hour online training course.

Certification

Delegates successfully completing the course will receive an IPAF Certificate in digital format via the IPAF ePAL app. valid for 5 years. A printed certificate can be supplied upon request.

Requirements

In order to attend this training course good written and spoken English is required.

Agenda

The successful completion of this E-Learning theory course **MUST** be undertaken prior to attending the Operator Renewal Virtual Reality practical session or tutor-led practical training.

Theory

- Introduction and pre-course theory test
- MEWP regulations and guidance
- Machine types and use
- Structural parts
- Familiarisation and pre-use inspection
- Safe operating methods and hazards

Practical

Delegates must successfully complete a minimum half-day of practical training and testing by attending either the Operator Renewal Virtual Reality (VR) practical session or tutor-led practical training before being issued a IPAF PAL Card as proof of having successfully completed Operator training.

**Approved
Training Centre**
