

IRATA Level 3 - Rope Access Supervisor

Course Aim

To provide delegates with knowledge and understanding of the roles and responsibilities of working at heights using rope access.

An IRATA Level 3 Supervisor is responsible for rope access safety on work projects.

Passing your Level 3 can lead to enhanced employment opportunities as Level 3 Supervisors are much sought after within the Rope Access Industry.

Who Should Attend?

Anybody currently holding an IRATA Level 2 Rope Access Technician certificate who is looking at working in a supervisory capacity. This course is for the most experienced Rope Access Technician who holds Level 2 certification and has at least 1,000 logged hours at Level 2 over a 12 month period.

Course Entry Criteria

- IRATA Level 2 – Rope Access Technician certificate
- Holder of in date Emergency First Aid Certificate
- Written recommendation from an IRATA company or assessor
- Minimum of 12 months and 1,000 hours of logged work experience at an IRATA level 2 over a 12 month period
- All delegates must be able to certify that they are physically fit and have no medical conditions that might prevent them working at height (a list of conditions that could affect practical training and work at height are available on request)

Agenda

Delegates will cover tasks undertaken by Level 1 and 2 technicians with the additional technically advanced rigging and rescue techniques.

- Advanced rope access techniques
- Comprehensive rescue techniques
- Equipment examination & legislation

Course Duration

This is a 5 day course.

Certification

Delegates successfully completing an IRATA Level 3 Rope Access Technician course will receive an IRATA certificate valid for 3 years.
