

Advanced Locksmith Course - UK Locksmith Association

Course Aim

To provide delegates with the skills and knowledge required to install and service locks on UPVC as well as identify and open common UPVC locks. This intensive course aims to provide a thorough knowledge of Advanced Locksmith techniques through practical hand-on training.

If you are booking with less than 3 working days notice from the course start date please ring 0345 605 0006 to confirm this course.

Who Should Attend?

Those who already have basic locksmith skills and wish to enhance their skills and knowledge in UPVC.

This course is also suitable for delegates who have already completed our Basic Locksmith Course.

Course Duration

This is a 1 day course.

Certification

Delegates successfully completing the course will receive a globally recognised certification from the UK Locksmiths Association.

Agenda

This day covers the extensive range of UPVC mechanisms, the correct way to identify them and how to gain access to failed mechanisms.

Course topics include the following:

- Identify, order and replace UPVC mechanisms
- Repair faulty mechanisms using the Emergency Lock Kit
- Open UPVC mechanisms non-destructively using the Latch tool
- Open UPVC mechanisms destructively using the Lock Puller tool
- Open Tubular locks non-destructively using the Tubular Pick tool
- Open Euro cylinders destructively on a small extrusion using the Adjustable Snapper
