

CITB - Achieving Behavioural Change (ABC)

Course Aim

This industry leading course will give delegates an understanding of how attitude, behaviour, communication and worker engagement can prevent accidents.

Who Should Attend?

Delegates working on or visiting a construction site, including contractor management, supervisors, all construction trades (bricklayers, electricians, plasterers) and non-construction trades (labourers and site drivers).

Course Duration

This is a 1 day course.

Certification

Delegates successfully completing the course will be awarded a CITB Construction Skills Certificate.

Agenda

This course covers the following:

- Basic legal duties for employers and employees
- Identify hazards and understand need for risk assessment
- Causes of accidents and the costs associated with poor safety performance
- The benefits of good safety performance
- The STAARR and TASK card systems
