

Competent Person Practical Inspection and Record Keeping (MOD 7W)

Course Aim

To provide delegates with an insight into the design, testing and manufacturing processes, as well as practical activities involving inspection and testing of damaged equipment.

New to this course

This course now includes Harness - Height Safety Equipment Appreciation and Inspection (MOD1) in the morning.

Who Should Attend?

Those whose work includes a requirement to carry out thorough examination of harnesses and lanyards as a nominated competent person.

Course Entry Criteria

All delegates must be able to certify that they are physically fit and have no medical conditions that might prevent them working at height.

(A list of conditions that could affect practical training and work at height are available on request)

Course Duration

This is a 1 day course.

Certification

Delegates successfully completing the course will receive a digital certificate of attendance valid for 3 years. Paper certificate and photo ID card can be requested at an additional charge.

Agenda

Morning

Height Safety Equipment Appreciation and Inspection (MOD 1) - for full course details please click [here](#).

Afternoon

Theory

- Understand the importance of trace-ability for all height safety equipment
- Understand the information required to complete inspection records
- Understand the effects of continual degradation of equipment and when it must be withdrawn from service
- Understand the importance of correct quarantine and disposal procedures
- Understand the processes for investigating the effects of contaminants and the details required for returning them to service
- Understand the design and testing procedures for height safety equipment

Practical

- Be able to inspect / thoroughly examine harnesses and lanyards for signs of continual degradation and fatal flaws
- Be able to record the findings of their inspections / examination

Equipment Covered During Training

- Example equipment that has been exposed to continual degradation, including harnesses and lanyards
- Example harness web samples that has fatal flaws
- Design / Production test samples
