

IPAF Harness Use and Inspection

Course Aim

Our industry leading course will provide delegates with the knowledge to understand the relevant Health & Safety Regulations, Guidance and Standards surrounding Harness use in particular.

They will also be given the knowledge to identify and select the correct form of Personal Protective Equipment (PPE) against falls from height when working from a MEWP.

The course will cover inspection, maintenance, monitoring, fitting and correct use of safety equipment.

Agenda

Introduction:

- Legislation, standards and guidance
- Hierarchy of fall protection measures
- IPAF harness statement
- Harness, lanyard and fittings
- Pre-use checks (including practical)
- Usage and anchor points
- Inspection and safe use
- Performing the task safely
- Storage and maintenance
- Hazards and precautions Rescue planning
- Theory Test

Who Should Attend?

Delegates whose work includes operating from a MEWP will benefit from this course.

Course Duration

This is a half day course.

Certification

Delegates successfully completing the course will have the Harness (H) category added to their Powered Access Licence (PAL) - valid for 5 years.

Those who don't have a current IPAF Operator Licence (PAL) card will be awarded a certificate only.
