

# NEBOSH Fire Safety & Risk Management

## Course Aim

This course will equip delegates with the necessary skills and knowledge to carry out fire risk assessments across a variety of workplaces. Once the course has been completed, delegates will also be able to identify a range of fire protective and preventative measures.

## Who Should Attend?

Our NEBOSH National Fire Certificate is designed for managers and supervisors who are responsible for ensuring that their organisation adheres to fire safety legislation, as well as individuals who are looking to work as a fire safety adviser.

## Course Duration

This is a 2 day course.

## Agenda

### Unit FC1: Fire Safety and Risk Management

- Element 1: - Managing Fire Safety
- Element 2: - Principles of fire and explosion
- Element 3: - Causes and prevention of fires
- Element 4: - Fire protection in buildings
- Element 5: - Safety of people in the event of fire
- Element 6: - Fire Safety Risk Assessment

## Certification

For Unit FC1, delegates will be assessed on a two-hour written examination. The written papers are assessed by NEBOSH external examiners.

For Unit FC2, delegates will be required to complete a practical examination within their own workplace. The assessment is to be taken within 14 days of the completion of the FC1 written examination. The practical examination is moderated externally by NEBOSH and assessed internally by the provider of the course.

To achieve the full certificate, candidates are also required to complete the NGC1 module within 5 years.

This course is delivered in partnership with Phoenix Health & Safety.
