

NEBOSH - International Construction Certificate (ICC)

Course Aim

This industry-leading course provides delegates in the Construction Industry with a solid foundation to carry out their responsibilities and make day to day decisions in respect of Health and Safety Construction activities.

This course is based on International Standards and Management Systems, providing delegates with the underpinning knowledge and skills to apply in a practical context anywhere in the world.

Who Should Attend?

Managers, Supervisors, Safety Representatives and personnel who have responsibility for day to day advice on Health, Safety and Welfare in the Construction Industry based outside the UK.

Delegates must have undertaken week 1 of the International General Certificate (IGC) course, or must have successfully completed the NEBOSH General Certificate unit 1 in the last 5 years.

Certification

Delegates are assessed by two written papers of two hours duration and a practical risk assessment, which tests their ability to put into practice the knowledge gained during the course.

A NEBOSH International Construction Certificate (ICC) is issued on successful completion of both written papers and the practical assessment.

This course is delivered in partnership with Phoenix Health & Safety.

Centre number 614
