NPORS – Rear Dump Truck (N205)

Course Aim

This course aims to provide delegates with the skills required to operate a Rear Dump Truck. It is suitable for operators of all abilities and those who have previously received no formal training or instruction. The course is delivered through a combination of classroom-based theory and practical hands on training.

Who Should Attend?

This course is suitable for any delegate wishing to gain an NPORS Rear Dump Truck operations certificate.

Experienced workers, categorised as those with having either 18 months provable work experience and/or 6 months consistent daily experience in the category, will be able to undertake a Experienced Workers Test (EWT). Completion of a EWT will allow experienced workers to take the NPORS Theory and Practical tests required for a NPORS certificate.

Prerequisites

• Novice – No pre-requisites

• Experienced Workers - either 18 months provable work experience and/or 6 months consistent daily experience in the category.

NPORS / CSCS Card

In addition to the above, delegates must have an in date relevant CITB Health, Safety and Environment Touchscreen Test. Failure to attend with this qualification may result in you being denied entry to the course and forfeiture of all fees.

A good understanding of spoken and written English is also required.

Agenda

Upon successful completion of this course, delegates will be able to:

- Describe the nature of the sector within industry and their role and responsibilities as a plant operator
- Name and explain the purpose of principal components, the basic construction, controls and terminology
- Conform to plant manufacturer's requirements as per the operator's handbook and understand relevant regulation/legislation
- Undertake all pre-use checks
- Configure and set for travel (site and highway)
- Travel over rough, undulating ground, steep inclines and level surfaces – loaded and unloaded
- Manoeuvre in confined spaces whilst carrying loads
- Ensure the suitability of the tipping and loading area
- Explain actions required for hazards, underground and overhead services
- Position to receive loads
- Comply with plant loading procedures
- Ensure load integrity and security
- Transfer loads to different locations
- Discharge loads into trenches and over edges
- Maintain safe and tidy working areas
- Carry out shut down and securing procedures
- Explain the loading and unloading procedures for machine transporting

NPORS – Rear Dump Truck (N205)

Course Duration

This is a 4-day course.

Certification

Traditional NPORS Card – Refresher training is advised every 3 years.

Upon successful completion of this course, delegates applying for NPORS/CSCS Card will be awarded a NPORS Red Trained Operators Card valid for 2 years. During this time delegates will be required to register for a relevant NVQ. Upon successfully completing of the NVQ, delegates will be awarded a Competent Operators Card valid for 5 years. A CPD record / operator logbook will also be issued which will need to be kept up to date.
