

NPORS – Skidsteer Loader (N212)

Course Aim

This course is designed to provide foundation training in the safe operation of a Skidsteer Loader. It is suitable for operators of all abilities and those who have previously received no formal training or instruction. The course is delivered through a combination of classroom-based theory and practical hands on training.

Who Should Attend?

This course is suitable for any delegate wishing to gain an NPORS Skidsteer operations certificate.

Experienced workers, categorised as those with having either 18 months provable work experience and/or 6 months consistent daily experience in the category, will be able to undertake a Experienced Workers Test (EWT). Completion of a EWT will allow experienced workers to take the NPORS Theory and Practical tests required for a NPORS certificate.

Prerequisites

- Novice – No pre-requisites
- Experienced Workers - either 18 months provable work experience and/or 6 months consistent daily experience in the category.

NPORS / CSCS Card

In addition to the above, delegates must have an in date relevant CITB Health, Safety and Environment Touchscreen Test. Failure to attend with this qualification may result in you being denied entry to the course and forfeiture of all fees.

A good understanding of spoken and written English is also required.

Agenda

Upon successful completion of this course, delegates will be able to:

- Name and explain the purpose of principle components, the basic construction, controls and terminology
- Conform to manufacturers requirements as per the operators' handbook, and relevant regulations/legislation
- Undertake all pre-use checks
- Configure and set plant for site travel
- Travel over rough, undulating ground, substantial inclines and level surfaces; laden and unladen
- Manoeuvre in confined spaces
- Configure and set for extraction and loading duties
- Explain actions required for hazards, underground and overhead services
- Extract differing types of materials from stockpiles and other sources
- Form stockpiles of segregated materials and construct (temporary) ramps
- Sort and place materials into transporting vehicles and hoppers
- Backfill, spread and level ground and materials
- Carry out plant shut down and securing procedures
- Explain the loading and unloading procedures for machine transporting

NPORS – Skidsteer Loader (N212)

Course Duration

This is a 3-day course.

Certification

Traditional NPORS Card – Refresher training is advised every 3 years.

Upon successful completion of this course, delegates applying for NPORS/CSCS Card will be awarded a NPORS Red Trained Operators Card valid for 2 years. During this time delegates will be required to register for a relevant NVQ. Upon successfully completing of the NVQ, delegates will be awarded a Competent Operators Card valid for 5 years. A CPD record / operator logbook will also be issued which will need to be kept up to date.
