Track Induction IO Days inc. DCCR

Course Aim

To provide the basic underpinning knowledge of permanent way construction, components and working methods associated with maintenance, renewal, repair, adjustment and dismantling of permanent way assets.

Only an authorised Sentinel co-ordinator may make bookings on this course.

Who Should Attend?

This course is designed to train persons who are new to track and whose work may involve the maintenance, inspection or renewal of the track or other duties that may affect the stability, position or integrity of the track infrastructure.

It is designed to develop a person's knowledge, understanding and skills as defined in the competence standards listed below and is therefore particularly suited to persons required to prove their competence in these areas.

TR1 Maintain Permanent Way Assets

TR2 Maintain 'Off Track' Assets

Course Duration

This is a 10 day course.
